PROFESSIONAL SUMMARY

- Software Developer with experience in building full-stack web applications using Java, Python, React.js, and REST APIs. Strong knowledge of Data Structures & Algorithms, OOP, DBMS, and scalable software development.

EDUCATION

- **Chandigarh University** Punjab, India
Bachelor of Engineering in Computer Science; CGPA: 7.0/10 Aug 2022 – May 2026
- **Rajo Singh College** Bihar, India
Intermediate in Science Stream; GPA: 3.2 (7.96/10.0) June 2020 – Feb 2022

TECHNICAL SKILLS

- **Programming Languages** : Java, Python, C++, JavaScript, SQL
- **Frontend** : HTML5, CSS3, React.js
- **Backend** : Node.js, Express.js, Flask, FastAPI
- **Databases** : MySQL, MongoDB
- **Tools & Platforms** : Git, GitHub, Docker, Linux
- **Core Computer Science** : Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, REST APIs

EXPERIENCE

Eazywizy Chandigarh, India
Software Developer Intern Oct 2025 - Feb 2026

- **Software Development:** Built and optimized full-stack web applications using React, Flask, and REST APIs, delivering scalable and user-friendly software solutions.
- **Real-Time Data Streaming:** Implemented WebSocket-based communication and custom React hooks, reducing latency and improving application performance.
- **Backend Modernization:** Contributed to migrating a Node.js monolith into microservices, enhancing scalability, fault isolation, and deployment reliability.

CodeZap Studio Chandigarh, India
Full Stack Web Developer Intern May 2024 - July 2024

- **Full-Stack Web Development:** Designed and developed responsive web applications using React.js, Flask, and REST APIs, ensuring seamless integration between frontend and backend systems.
- **Interactive User Experience:** Built dynamic user interfaces and implemented WebSocket-based real-time features, improving application responsiveness and user engagement.
- **Backend Development & Optimization:** Developed backend services, optimized API performance, and contributed to microservices adoption, improving application scalability and maintainability.

PROJECTS

- **Rural Build Connect (Research Paper):** Accepted Elsevier SSRN (ComSIA 2026, ID: 365). IoT/AI framework for rural digital inclusion, smart agriculture, healthcare via sustainable infrastructure.
- **Personal Portfolio Website:** Built and deployed a responsive portfolio application using React.js, featuring project showcases, skill highlights, and optimized user experience through modern frontend development practices.
- **Recommendation System:** Music and movie recommender systems using collaborative filtering on public datasets.
- **Breast Cancer Detector:** CNN model (98.5% accuracy) on Wisconsin dataset with Flask app and Grad-CAM interpretability.
